PSYCHIATRISTS & THEIR SECRETS

Left to right Arthur Schimmel, Henry Crown [Kranz] the finance man behind the Hilton Hotels Jack Arvey, political boss of Chicago, and Isador Teger, Crown's attorney Arthur Grant [Greenberg] who represented him in the purchase of the Empire State building in New York. All five of these sterling characters are so-called Jews.

Henry Cohen, business man and industrialist, and Jacob M. Arvey, Democratic national committeeman from Illinois, were cited by the Psychiatric Aid Society for their service to humanity and became members of the society's board of directors. Col. Crown and Arvey, at a ceremony in Crown's office, received plaques from Isadore Teger, founder and president of the Psychiatric Aid Society, and Arthur Schimmel, a director. And who are these distinguished men? Practically all Psychiatrists are "Jews". It is a Jewish institution which provides anti-

Christian plotters with opportunities to explore the minds of non-Jewish people. In this way they secure the most guarded business and family secrets which they can use in many ways to gain power and finance, to advance the Jew and destroy Christians. The Protocols state that "Jews" will become accountants, lawyers, and doctors so they may know the inside secrets of Christians. This is one of the reasons that practically all business establishments belonging to Christians, when sold, pass into Jewish hands. Jews are now promoting Mental Health as another means of controlling non-Jews.

MEN COMPETING WITH RABBIS

Reprinted From "The Canadian Intelligence Service", Flesherston, Ontario, Canada - Ron Gostick, Editor.

Are you, in Mr. Brock Chisholm's book, "an indifferent fellow competing with rabbits" while ignoring your "responsibilities as a citizen of the world"? Mr. Chisholm, director-general of the UN World Health Organization [former Deputy Minister of Health and Welfare in Ottawa], in an article in WEEKEND Magazine [Vol.5, No.10, 1955], published by the Toronto Telegram, says that: "A man who fathers six Canadian children is 'an indifferent fellow who has ignored his responsibilities as a citizen of the world. There is nothing admirable in competing with rabbits. This is not man's function...'"

If everyone would become an advocate of birth control instead of envying the man with a family of six children, "if we voluntarily allowed our Canadian birth rate to fall and increased our population by immigration," this would have a "most reassuring effect" on the peoples of overpopulated countries. If we can "afford" to, it is permissible to have a large family. "only have it the world citizen's way. Produce a few babies of your own and adopt the rest from other countries where they have them to spare."

Canada should start a large-scale adoption program of children from other countries" instead of having our own. "It would have a very good side effect, too, if the children had brown or yellow skins... As far as I am concerned, the sooner we're all inter-bred, the better."

Mr. Chisholm then laments that many UN delegations are reluctant to discuss birth control measures because of fear of the reaction of their peoples back home. But a "few courageous

people" from 14 non-Communist countries, he said, "have organized an International Planned Parenthood Association to spread the gospel of birth control. In the U.S., a new foundation to deal with population problems is beginning to function with funds from the Rockefeller Foundation."

Now my dear Mr. Chisholm, I presume that, by your standards, I'm a borderline case. You see, we have 5 lovely children - and all of the same colour. If we had one more little child, then I'd be "an indifferent fellow," wouldn't I! But not so indifferent as to let your subversive line go longer unchallenged!

So it is permissible to have a substantial family if we can "afford" it, and so long as the children are not all our own! Can the Christian home, I ask, "afford" NOT to have children - even if they ARE all our own? Your "immigration adoption" program would actually constitute "genocide" against the white race. It would breed the white man into extinction within a century. This, you deem desirable. All I can say, sir, is that for my money you are a discredit to the race which brought forth the great Christian civilization and elevated us to a position where others could look for help and assistance. Today the white man is a tiny minority in a world of colour. Now you ask that minority to stop reproducing and instead "adopt" the offspring of the coloured majority who are allowed, it would seem, to have their "six" without ignoring their responsibilities as world citizens. You ask us, sir, to commit racial suicide. And if we object, then we are "indifferent fellows" ignoring our responsibilities! Who are you speaking for, Mr. Chisholm? Some

- CHRISTLESS CHRISTIANS -

By Benjamin H. Freedman

If today the 1,800,000,000 population of the continents of Asia and Africa, including the Middle East, are now lost to the Christianizing influence of Christian civilization, the full responsibility for this tragic development rests completely upon the Christian nations. Christian nations cannot easily wash from their hands the blood of the inhuman crime committed, in Palestine in 1948 in which they were accessories before and after the fact.

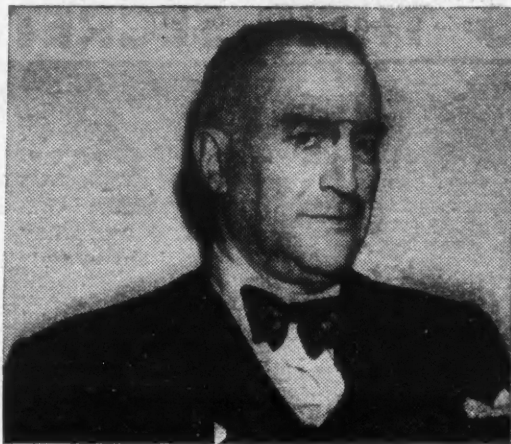

In the considered opinion of the 450,000,000 Moslems of the world, of which the 1,000,000 Palestinian Moslems numerically form only a small fraction but otherwise mean very much to their co-religionists, the United States is primarily responsible for the virtual crucifixion of the 1,000,000 Moslem Palestinians, so completely innocent of offence against anyone. The 450,000,000 Moslems of the world now realize that Palestine was stolen from its rightful and righteous owners and occupants in order to insure victory for the Democratic Party with Electoral College balance, - of - power votes controlled by the Zionists in the United States, in the approaching 1948 presidential elections.

The 450,000,000 Moslems of the world lost their remaining respect for Christianity when they witnessed how the Christian denominations abandoned their 350,000 co-religionists in Palestine to their doom. Such inhumanity of Christians to Christians was never before recorded in the annals of Christianity according to the best informed Moslem historians.

The 50,000,000 Moslems in the Middle East countries are referred to in Christian countries as Arabs. In 1948 the population of Palestine included about 1,000,000 Moslem Arabs and about 350,000 Christians, who were also regarded throughout the world as Arabs. The 50,000,000 Arab

than 1700 years.

In defense of their 1,000,000 co-religionists in Palestine, the 450,000,000 Moslems of the world have firmly resolved to resist further attempts by Christian nations to introduce and promote Christian dogma and doctrine in Asia and Africa, to thwart the political and economic ambitions of Christian nations on those two continents. The 450,000,000 Moslems of Asia and Africa are now aiming to slam shut in the face of Christian nations the doors to two continents containing approximately 80% of the world's total population, four out of every five human beings on the face of the earth.

BENJAMIN H. FREEDMAN

Christianity itself and everything it stands for has "lost face" with the non-Christian, non-"white" 80% of the world's total population inhabiting Asia and Africa. They now realize that the brutal rape of Palestine was engineered by the Zionist-dominated administration of the United States Government in 1948. They cannot for-

Since the end of World War 11 however, approximately 1,500,000 Zionists have been transplanted into Palestine against the wishes of Palestine's native population. This was only possible with the assistance of 100,000 British troops stationed in Palestine expressly for that purpose by the Zionist-dominated British government in London. Plans are now maturing for transplanting an additional 4,000,000 - 6,000,000 Zionists of various races and nationalities from 61 other countries financed by "tax-deductible" funds raised in the United States for that purpose.

The 450,000,000 Moslems of the world are being told in spite of these facts that there is no room in Palestine for the 1,000,000 Moslem Arabs and 350,000 Christian Arabs to return to the homes and farms from which they were driven into exile in 1948 by the Zionists. Fully conversant with all the facts, United Nations passed three resolutions in 1951 calling for the return to their homes and farms in Palestine of the 1,000,000 Moslem Arabs and 350,000 Christian Arabs who wished to return there. The Zionists refuse to implement these three 1951 resolutions of United Nations although they owe their existence as a so-called "sovereign state" to a 1947 United Nations resolution. It seems that now "the shoe is on the other foot."

The sinister conspiracy master-minded by Christian political leaders in the Democratic Party, between leading figures in the United States Government and the Zionist high command, exiled 1,000,000 Moslem Arabs and 350,000 Christian Arabs across the borders of their homeland into the deserts of neighboring nations to exist there penniless and hungry, in dirt and disease. These Palestinians seek to return to their homes and farms where they can live as

American money and American Jewish power is responsible for the desperation of thousands of Arabs and Christians in the desert today. The more the Jews destroy the more they ask for aid.

Jewish aggression and many atrocities have driven some 950,000 Arabs from their homes and fields. They have taken refuge in the neighboring Arab countries where very little is to be had.

Moslems in the Middle East countries are regarded by their 400,000,000 co-religionists elsewhere in Asia and Africa as the cultural and spiritual core of the 450,000,000 Moslem population of the world.

The ancient ancestors of the native Christian Arabs in Palestine are the only Christians in the world descended from the families which walked with Jesus Christ during His earthly existence. The exception is a small number of Christian pilgrims who have since settled in Palestine as representatives of their respective Christian churches. The ancient ancestors of the native Moslem Arabs in Palestine are also descended from families which walked with Jesus Christ during His earthly existence. These ancestors of the Christian and Moslem populations of Palestine fertilized the soil of Palestine with their sweat and blood for more than 1700 years. Until the Zionist conquest in 1948, they were in possession of nearly every square foot of territory in Palestine, their rightful homeland for more

get that their 1,000,000 co-religionists and 350,000 Christian Arabs were sacrificed to the Zionists as a matter of political expediency. They cannot forget that the brutal rape of Palestine was a form of repayment to the Zionists for their rescue of the Democratic Party from defeat in the presidential election of 1948. Christianity has lost the valued and valuable friendship of the only religious group in Asia and Africa which also worships Jesus Christ.

The 450,000,000 Moslems of the world are daily becoming more keenly aware that the brutal rape of Palestine was never what the Christian nations represented it to be. The Christian nations continually represented to the Moslem world that the Christian nations were anxious to secure a safe haven for approximately 224,000 of "Hitler's victims" allegedly still "rotting" in concentration camps in 1948. That was their story even three years after the end of the war to make Europe a safe place for everybody.

human beings again, as they did before they were driven out by the Zionist invaders of their homeland.

Christian nations have been unable to supply the 450,000,000 Moslems of the world with a satisfactory explanation why the Christian nations handed over Palestine to the Zionists. The Moslem world correctly states that at no time in history have the Moslems contributed towards making Europe an inhospitable place for Zionists to live. The Moslem world asserts that if Europe was an inhospitable place for Zionists to live that Christians alone are responsible for that situation. And furthermore the Moslem world asks, for what were two World Wars fought if not to make Europe a safe place for law-abiding persons to live?

The roofs of many Christian churches were almost lifted off the buildings by the ringing voices of clergymen proclaiming from their pulpits that as good Christians their congregations should bring

-Christless Christians-

every pressure to bear upon the administration in Washington, and by every other possible means seek to implement the "repatriation" of the "chosen people" to their "homeland" in their "promised land." The Moslem world knew that this myth was pure fiction. The Moslem world also knew that the Christian clergy knew they were practising a grave deception upon their trusting congregations. The Moslem world knew that the Christian clergy also knew the Zionists were not the remnants of the "lost ten tribes," and that the articulate Zionists never possessed ancestors who ever set foot in Palestine in the days of Bible history.

The 450,000,000 Moslems of the world correctly hold the Christian world responsible for the part it played in the commission of the ghastly crime against 1,350,000 innocent men, women and children. The Christian world attempts to defend itself against this serious accusation by pleading that "for a long time the Zionists have prayed three times a day for Palestine." The Christian world offers no better justification for the embezzlement of homes, farms, factories, utilities, railroads and other physical properties valued at \$4,750,000,000. in a survey made by United Nations at the time. The homes, farms, buildings, factories, bank accounts and other assets were all confiscated by the Zionists without one-cent compensation to their rightful owners. The Zionists truly owe the Christian nations more than gratitude for this \$4,750,000,000. bonanza.

For centuries the Zionist masterminds have realized that until or unless the Zionists could obtain the active collaboration of Christian leaders in Christian countries the Zionist dream of the conquest of Palestine would remain only a dream. The Zionists implemented that policy perfectly. Christian leaders cannot today honestly disagree with the attitude of the 450,000,000 Moslems towards the Christian world. The brutal rape of Palestine with their help bears witness to the outstanding success of this Zionist strategy in the conquest of Palestine.

The 450,000,000 Moslems regard the United States as the "key" Christian nation also in a political sense. This has resulted in political repercussions in Asia and Africa with serious implications upon the future welfare and security of the United States. The inferences are more serious than appears on the surface. The repercussions which were set in motion by the brutal rape of Palestine are developing into a situation which may prove critical in the career of the United States as the world's leading power.

In 1948, exactly six minutes after the transplanted Zionist revolutionists in Palestine "proclaimed" their revolution a "sovereign state," President Truman officially "recognized" this Zionist so-called "sovereign state" on behalf of the United States Government. This occurred immediately upon the withdrawal of the last of the 100,000 British troops stationed in Palestine. This "recognition" by President Truman was understood by the Moslem world as the "pay-off" by the administration in Washington for past, present, and future political support of Democratic candidates for elective offices by the Zionists in the United States. That appeared very evident to the Moslem world. The President of the United States was "Johnny-on-the-spot" with the recognition.

Unless President Truman had recognized the 1948 Zionist revolution in Palestine as a "sovereign state" at that time, the Zionist revolution would have remained a "domestic affair," as revolutions are regarded by international law. The United States is prohibited by international law

from interfering in the "domestic affairs" of any other country. United Nations Charter also expressly and explicitly prohibits United Nations or any of its members from interfering in the "domestic affairs" of any nation. Consequently, neither United Nations nor the United States could interfere in Palestine as long as the Zionist revolution there was a "domestic affair."

In order to interfere in Palestine it became necessary to transform the "domestic affair" in Palestine into an "international affair." United Nations Charter prohibits interference by United Nations, or any of its members, in situations which are not threats to "international peace." The Zionist revolution in Palestine was converted from a "domestic affair" into a threat to "international peace" by "recognition" by the United States of the Zionist revolution in Palestine as a "sovereign state." The Zionist revolution in Palestine was thereby instantly converted into an armed conflict between "sovereign states." The magic of this "recognition" by the United States made it possible now for United Nations and its members to interfere in Palestine, which they promptly did. Without "recognition" by President Truman neither United Nations nor the United States could have interfered in the Zionist revolution in Palestine.

As explained, revolutions are "domestic affairs" and are strictly "out of bounds" for United Nations or its members. However, neighboring states may be obligated under treaty arrangements to interfere in "domestic affairs," or they may do so by invitation. It was under treaty obligations, and by invitation, that Egypt, Syria, Lebanon, Trans-Jordan, Iraq, Saudi Arabia, and Yemen engaged in the defense of Palestine against the Zionist revolutionists. But the military equipment supplied to the Zionist revolutionists by Christian nations made the Zionist revolutionists an invincible foe for the seven nascent nations seeking to subdue the Zionist revolutionists. The poorly equipped armies of these seven nations barely emerged from under Western colonialism stood no better chance of winning against the Zionist revolutionists than a snow-ball has in hell.

The 450,000,000 Moslems of Asia and Africa do not understand why this government recognized the Zionist revolution six minutes after the Zionist invaders "proclaimed" their revolution a "sovereign state" and now refuses to recognize as "sovereign states" the governments "proclaimed" in North Korea, East Germany, and on the mainland of China, or governments "proclaimed" by natives indigenous to those areas for thousands of years. Any difference between these three "sovereign states" and the Zionist "sovereign state" in Palestine favors recognition of North Korea, East Germany, and the Peoples Republic of China according to the international standards for recognition of new "sovereign states."

It is a mystery to the 450,000,000 Moslems of Asia and Africa why the United States sacrificed the lives of 30,000 of its fine young men, and suffered 150,000 additional casualties to prevent the recognition of the "sovereign state" of North Korea, but the United States recognized the Zionist "sovereign state" in Palestine six minutes after the transplanted Zionist revolutionists "proclaimed" their revolution a "sovereign state." They ask themselves is it because the North Koreans do not control the Electoral College balance-of-power votes required to elect to office the candidate for President of the United States, but the Zionists in the United States do control them?

This is neither the time nor place to attempt to reconcile history and politics. In passing however, it might be stated here that if the king of the Khazars in the 7th century had not established as the state religion of the Khazar kingdom a religious belief founded upon the teachings of the

Talmud that there would have been no Zionist invasion of Palestine in the 20th century, and no Zionist revolution in Palestine in 1948. The hideous and horrible consequences of Zionist aggression in Palestine, past, present, and future, are the result of the unbridled fanaticism of followers of the Talmud. The religious flavor of Zionist aggression in Palestine is a form of deception calculated to enlist Christian cooperation.

The spiritual complexion given to Zionist political aggression in Palestine to discourage Christian curiosity, is a fraud according to the stories which leak out of the Middle East. Zionist political aggression in Palestine is advertised as the "repatriation" of the "chosen people" to their "homeland," in their "promised land." But never in all the recorded history of mankind has any so-called "sovereign state" been guilty of such vicious crimes against persons so completely innocent of any wrong-doing, totaling more than 1,350,000 men, women and children. The newspapers in the Middle East report almost daily instances of murder, arson, theft, rape, and many other crimes.

The United States and other Christian nations should take note that the 450,000,000 Moslems of the world since 1948 have continually and consistently gone on record that they will never recognize the existence of the Zionist so-called "sovereign state." Without any reservation, equivocation, or hesitation they have stated on numerous occasions that the Moslem world will never accept the Zionist so-called "sovereign state" as a reality, or a "fait accompli" as the Zionist-dominated press prefers to refer to the status quo. In the recent congress in Bandung representing 80% of the world's total population resolutions were adopted expressing sympathy for the attitude of the 450,000,000 Moslems on the question of Palestine. The moulders of the foreign policies of Christian nations will be wise to take this into consideration.

Christian nations must realize that they cannot expect to regain the friendship and cooperation of the 450,000,000 Moslems in Asia and Africa while the Christian nations condone a situation which condemns 1,000,000 Moslems to exist as impoverished human derelicts on the sands of the deserts of their former neighbors, while the transplanted Zionist invaders of their homeland occupy their homes and farms, in peace and prosperity, guaranteed to them by the leading Christian powers, with the threat of military action by them to prevent the return of these 1,000,000 Moslem exiles to their homes and farms.

An Arabic saying states, "The enemy of my enemy is my friend." The Soviet Union will capitalize every rupture between the Christian and Moslem world, and widen the breach if possible. The Soviet Union does not underestimate the value of the friendship of 450,000,000 Moslems strategically situated in Asia and Africa, and the inexhaustible reservoirs of natural resources of these continents. Christians will rue the day the 450,000,000 Moslems in Asia and Africa move into the Kremlin camp. The inevitability of the unpredictable has proven itself many times in modern history. Politics has made strange bed-fellows. Our foreign policy must be based upon what is best for the entire nation. Quo vadis?

MEN & RABBIS

of us are just 'reactionary' enough to believe that were we to follow your program, then we would be ignoring our responsibility to God and country.

No one has a greater respect for, or more friends among, our yellow-skinned neighbours and "ethnic groups." I respect their colour, their unique qualities, and their culture, as I'm sure they respect mine... And incidentally, Mr. Chisholm, what right have we to tear away from their own mothers the children of Asia or Africa? Are you sure these mothers wish to export their babies?

UN AND BIG FOUNDATIONS TYPIFIED BY 'CHISHOLMISM'

The majority report of the Reece [U.S. Congressional] Committee on Foundations, disclosed that it was the Rockefeller Foundation which made possible the Kinsey studies on sex, in which conclusions were reached that homosexual molesters of children "may have contributed favourably to their [the children's] later socio-sexual development," and that pre-marital sex relations of women "provide an opportunity for the females to learn to adjust emotionally to various types of males."

Julian Huxley, former chief of UNESCO, which is supported by Christians and is admittedly the greatest international attempt ever made to influence human thought and moral outlook, wrote:

"The advance of natural science...has brought us to a stage at which God is no longer a useful hypothesis. A faint trace of God...still broods over our world like a smile of a cosmic Cheshire cat. But the growth of...knowledge will rub even that from the universe. I do not believe in the existence of a god or gods."

Make no mistake: the Huxleys, the Kinseys, the Chisholms, the Keenleysides, and the Hisses—this is the stuff of which the UN is made.

No wonder the Kremlin stays in the UN, helping to spend our tax-dollars to subvert our own civilization! One Chisholm, in our book, does more to undermine and subvert Christian society in one week than a Tim Buck does in a lifetime.
